

Jérémie Kerouanton

Tech Music iDeas

experience

I learnt to code
by building
online radio
stations

(since 2018)

overDub.dev

(web developer)

I have been a freeLance fullstack developer for the last couple of years. I have worked by myself and as part of teams with experienced devs. The projects I worked on involved dynamic interaction with maps and multi-lingual integration. See overDub.dev for a complete portfolio.

(since 2008)

iZem

(dj and music producer)

I have produced and deejayed under the stage name “iZem” for the last 10 years. My main goal is to create bridges between contemporary scenes of different continents. I have worked extensively with Brazilian and Portuguese-speaking artists. I have released my own music on renowned independent labels such as Soundway Records. I have also been producing music for other artists such as Guts, Mayra Andrade and Sara Tavares. My music has been broadcast on BBC Radio, KCRW and many others.

(2007 to 2015)

Groovalizacïon

(co-founder)

Groovalizacïon started as a global multi-lingual online radio station. We were streaming 24/7 and we had dj’s and collaborators in various cities around the world. It evolved into a event production and consulting business. I have left the company in 2015. The website still exists as an international music podcast / radio shows platform.

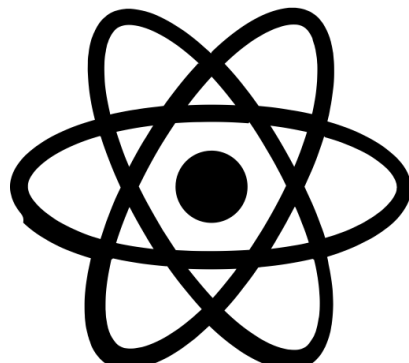

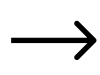

(2000 to 2006)

**Radio France
Internationale**

(engineer and producer)

I was engineering, editing and producing a variety of radio shows on topics such as current affairs, world history, African music, literature, science... I also worked in other radio stations and production studios during the same period.

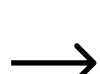

tech skills

the technologies I used
the most so far are
Javascript and
React

Javascript		
React		
Next.js		
Css		
Html		
jQuery		
Python		
Figma		
Git		

education

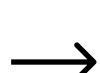

i have lived and
worked in 7 countries
and I can speak **4**
languaes fluently

2017	→	Finished Harvard online's Computer Science course 'CS50'
2000	→	Sound Engineering Degree. Lycée Jacques Prévert, Paris
